

MOJAVE 100 - RGBW LED FLOODLIGHT

100W RGBW 24V Constant Voltage Architectural LED Floodlight

Our Mojave RGBW LED floodlights are manufactured from powder-coated aluminium and are rated to IP67 making them perfect for use in all internal and external applications. They feature 48 individual 2w high-powered EPILED LED chips which are 4-in-1 RGBW (Red, Green, Blue, and 6000K White).

The body of the Mojave floodlight is ventilated for heat dissipation but the PMMA LED modules secured on the top are sealed giving the luminaire its ingress protection.

The Mojave range of floodlights are 24V constant voltage and each luminaire is pre-wired with a 2m 5-core external waterproof cable.

We have these architectural floodlights manufactured without any internal power supplies or DMX control equipment to give us the flexibility to use them in a huge range of different configurations both wired and wireless using our other control systems.

- IP Rating: IP67 suitable for indoor or outdoor use
- LED Source: 48 x 2W EPILED
- Power: 100W @ 24V Constant Voltage
- LED Colour: RGB + 6000k White
- Beam Angle: 40 degree as standard (also available in 15, 25, 60 and 90 degree)
- Material: Powder-coated Aluminium (also available in black)
- Weight: 4.6kg
- Dimensions: 570mm x 106mm x 85mm
- Cable Length: 2m
- Dimmable: Yes, via dimmable LED driver or suitable lighting control system
